

BALTIMORE'S NEW MOVE.

THE ARRANGEMENTS THE ORIOLES ARE ENDEAVORING TO MAKE.

They Want to Enter the League as Part of the Washington Club—St. Louis and Other Players Joining the Brotherhood—Steeplechase at the Fair Grounds Tomorrow—General Sporting News.

By Telegraph to the Post-Dispatch.

NEW YORK, Nov. 27.—Efforts are being made to consolidate the Baltimore and Washington ball clubs and place the former in the League. According to the national agreement the change must be made this month if at all. The scheme has been quietly worked since the Brooklyn, Cincinnati and Kansas City clubs seceded, and it now turns out that the visit of Manager Barrie to this city has a great deal to do with it. He admitted that the Washington deal was well in hand and that developments would follow very soon. The principal owner of the club was seen and said he was negotiating with the Washingtons and hoped the deal would go through all right. Mr. Hewitt wants too much money, but is willing to consolidate. The Baltimore club wants to buy the franchise. When the three clubs jumped the Association, the Baltimore saw that the organization was demoralized to such an extent that they must seek a new field, and they set about to get hold of the strongest rope.

The club had lost money, and no other alternative presented itself but to get into the League at the meeting in this city. As already stated, application was made to get into the League, and Washington was selected as the fighting ground. Since then the chief backer has been in communication with President Hewitt and has not yet visited Washington, but has been visited by Mr. Hewitt. The Baltimore club made a proposition to the Washingtons to purchase the franchise outright, or to consolidate the two clubs. President Hewitt did not like this, but said that the Washingtons would be willing to play on a co-operative system, provided the League acquiesced. The object of the Baltimore Club was to get the League to recognize the club as the day after the meeting and to give application to the half of the members in Baltimore and half in Washington, and should either city show that it was the better place for the President Hewitt was in this city on Monday and yesterday was in Boston. He came to secure the representation of New England and Boston on the co-operative plan. He got but little encouragement in this city.

The Brotherhood's Movements.

Not only have the Brotherhood secured Latham, King, Boyle and Milligan of the Browns, but, according to a statement made by the first-named at Kansas City yesterday, Tim O'Neill will be added to the ranks of the club's new organization. Both will probably be found in the list, and, in fact, it is pretty certain that he signed a contract several days ago. Mark Baldwin in addition to the above, and Captain John O'Connor, yesterday, will be in all probability get Bug Hooligan of the Cincinnati. The Bug played for \$2,800 last season but Stern has offered him \$3,000. The Bug is to receive a Brotherhood bid \$200 higher for his services.

Henry Staley of Pittsburgh announces that he will sign a Brotherhood contract, so will Bill Brown, the pitcher of the Cardinals, Carl of Pittsburgh, Pitcher Clark of Omaha and first-baseman Tucker of Baltimore. In fact, the Brotherhood appears to be getting all the best men in all the Associations, and the new League promises to be the only organization of any consequence in the country.

The American Association is almost a complete wreck and the National League is but little better off. Of all Association clubs, St. Louis promises to be the sturdiest so far as losing players is concerned.

TO-MORROW'S STEEPELCHASE.

Sketches of Some of the Runners Who Will Participate.

THE M. A. A. C. Steeplechase takes place at the Fair Grounds to-morrow at 3:30 p. m., over the regular steeplechase course, a distance of four miles, with twenty hurdles and water jumps. All the crack local distance runners have entered and the races will come off, rain or shine. G. M. L. Sacks of the Manhattan Athletic Club of New York will act as referee and Daniel H. Wilson will be the starter. Brief sketches are herewith given of some of the principal contestants.

Brief sketches are herewith given of some of the principal contestants.

M. A. A. C. first made his appearance on the cinder-path in 1887 at the Fair Grounds, and has won the one-mile race in the one-mile race. Although he did not win he made a very creditable showing for a beginner. At the games of the A. A. C. at the Fair Grounds he won the one-mile race a few weeks later, he won the one-mile race from the 100-yard mark, beating Cahill, King and O'Fool. He also won the one-mile race at the A. A. C. games in October of the same year. On March 5, 1888, starting next to scratch in the Missouri's cross country run at Forest Park, he won second place to a fast Nationalistic, games at the Fair Grounds, he won the mile and the quarter-mile runs, and distinguished himself one mile runner at Forest Park by winning the Western championship for one mile. On August 31 of this year, at the Wadsworth's games in Chicago, he started a new record, a new yards mark in the one-mile and won a great prize in 4:36½, beating Baker, Brown and McColaugh. At Belleville, on October 27, he distinguished himself one mile runner at the Open-air games at the Fair Grounds and celebrated Alton Society Club will occur to-morrow night at the same place.

Mr. Thomas Miller and Miss Mary E. Heron, of Bristol, England, were married yesterday morning at 8:30 o'clock in St. John's Church. He is a very young man, and has been here ever since. He is 5 feet 6 inches tall, and weighs, in round numbers, 160 pounds. He ran his first race when he was 16 years old, and on the first race he won. He has won every time since, and has won the one-mile race in the one-mile race. Although he did not win he made a very creditable showing for a beginner. At the games of the A. A. C. at the Fair Grounds he won the one-mile race a few weeks later, he won the one-mile race from the 100-yard mark, beating Cahill, King and O'Fool. He also won the one-mile race at the A. A. A REVISED MESSAGE.

President HARRISON'S extreme care to
keep the suggestions of his first message
profoundly secret to the last moment
before the reading of the document in
Congress, shows that the Administration's
programme for the session has been sub-
jected to many amendments since the fall
elections, and that the work of revision is
still incomplete.

There can be no doubt that the Repub-
lican revolt against MAHONE in Virginia
was a center shot that utterly deranged
the Administration's plan for the winter.
The impudent claims of MARONE and of
Senator BLAIR that the Adminis-
tration ticket was defeated in Vir-
ginia by fraud and violence in-
dicating the necessity for Federal
control of elections, show what would
have followed that election if the Virginia
Republicans had not rebelled against MA-
HONE's bossism so openly and vigorously.
But with so many of the leading Repub-
licans in that State glorying in his defeat
and pointing proudly to the majority of
nearly 50,000 against him as their work,
the cry of fraud is "done for," and Pres-
ident HARRISON's whole plan for building
up a new Republican party in the South
is a wreck.

That huge majority against MAHONE
was, in fact, the protest of the Southern
Republicans themselves against any
new legislation to enable the Fed-
eral Executive to control their
elections and to foist upon them such
bosses as MAHONE and CHALMERS.
Ex-Gov. BULLOCK of Georgia has voiced
their sentiments in a recent letter in
which he says: "If we are forced to de-
fend the issue of centralized power in-
terfering with the domestic affairs of
the States, there will be no possibility of
political growth here, and the reaction
in the North will make certain an oppo-
sition majority in the next Congress-
sional election."

We sincerely hope that the Kansas dele-
gates to the Silver Convention will not be
so severely shocked at the overwhelming
evidence that St. Louis is a wet town.
There is said to be a good deal of wetness
in Kansas, but it is mostly underground.

The favorite method of closing a meet-
ing of the Hendricks' Association is by
turning off the gas. The good of the
association and of the community at
large would undoubtedly be best served by
keeping the gas in this condition permanent-
ly.

The so-called anti-trust law of this
State has needlessly embarrassed legitimate
business operations but has not
even scared one of the big trusts or
combinations which promised to wipe out. It
was evidently not loaded for bear.

It is often necessary to turn down
the gas on the Hendricks Association that
it would be advisable for it to use a dark
lantern. Its use would be entirely in
keeping with the aims and methods of the
organization.

THE WISCONSIN DENS.

Hurley's Vile Resorts Raided by Ashland County Officers.

ASHLAND, Wis., Nov. 27.—Wholesale arrests of persons connected with the vile resorts of Hurley were made last night by Ashland County officers at the instance of District Attorney Rossman. Sheriff Matson, District Attorney Rossman and a posse of officers, including Under Sheriff Conn, Deputies Boyd, McKenna, Kennedy, Prothero and Conovan, left for Hurley. The train reached its destination at 9:15 and a general raid was made immediately. Arrests were made for the purpose of the removal of the notorious dens and other infamous resorts that have been flourishing since the early days of mining excitement. But really the officers left to make a short and energetic search in several different places for the missing \$30,000 which was stolen from the Iron Exchange Bank. It is understood that the woman, Chaser, if she is really active in the employ of Col. Byrne, has at least given the officers valuable pointers as to the location of the dens, but nothing will be left unsaid in the effort to discover the money. The examination of Perrin will be held Friday at Ashland. District Attorney Rossman, W. B. Butler and Thayer, now in jail at Superior, will waive their rights and appear at the same time without requisition papers from Gov. Heard. If Perrin is ever released he will be caused to leave his many warm friends here, and stoutly maintains his innocence.

FOR THEIR NEW HOME.

THE MECHANICS' EXCHANGE ADOPTS A NEW BUILDING PLAN.

Half of the Stock Subscribed Before the Circular Containing Information of the New Plan Are Printed.—List of the Subscribers—What the Executive Committee Has to Say of the New Scheme.

THE COMMITTEE having charge of the furthering of the Mechanics' Exchange building movement has decided upon an entirely new plan for raising the funds, and the result of the change has been so satisfactory that the scheme is already an assured success.

Half the amount of money necessary to carry

it through has been subscribed almost with

out solicitation and the remainder will be se-

cured probably before the end of the week.

THE NEW PLAN.

The new plan is fully set forth in a circular gotten up by the Executive Committee and now in the hands of the printer. The Executive Committee consists of the following named gentlemen: Anthony Itiner, W. S. Simpson, Daniel Evans, Stephen O'Connor, James H. Keefe, Luke McLaughlin, S. L. Jones, Sam Marston, Wm. Cochran, R. J. Loyd, F. P. Hunkins, E. C. Bonnick, Joseph L. Guedry, C. O. Weaver, James Durose, J. H. Dause, M. J. Ward, Daniel Cavanaugh, Jeremiah Sheehan, W. Ballou, T. P. McKelvey, Thad S. Smith, F. B. Berger, John Low, William A. Rutter. Finding that the first plan adopted did not meet with the degree of favor demanded they set their think

ing to work to evolve one which would be more popular and they have been successful very beyond their most sanguine expectations. The new plan is organized with a capital stock of \$50,000 all paid up, and divided into 500 shares of the par value of \$100 a share. With this \$50,000 it is proposed to purchase a suitable lot. Then \$100,000 (or more if necessary) worth of bonds of the value of \$500 and \$100 each will be issued to build the Exchange. These bonds will bear a fair per cent of interest, payable semi-annually, and will run for a period of twenty years. The new building is to be at least five stories high, the first floor to be rented out as offices, the second floor to be occupied by the Exchange, an Exchange Hall and the three upper floors to be sold into flats, each with modern improvements to be rented to the members or any person or firm desiring an office in the building.

WHAT IS EXPECTED.

The committee speaks as follows of the enterprise in its circular: "We feel confident the building will not be enough to accomplish this much, if nothing more, namely: That the income will be sufficient to pay the taxes, interest on the bonds, and to keep the building in repair and will also leave enough on hand to create a sinking fund to pay the bonds when due."

In doing this we will be making, at the end of twenty years, the handsome sum of \$100,000 on our investment of \$50,000, which will be 200 per cent profit in twenty years, or 10 per cent per annum. We have very low estimates of what the building will earn, being only 3% per cent, net, on the cost of same, and we know of similar buildings earning considerably more. We also know that the position that at the end of twenty years the building and lot is only worth what it cost, namely, \$50,000. But this is not to be considered as a loss, but as a profit to the city of St. Louis, and are acquainted with the present low prices of the central business portion, and the cost of building a building of this size and lower than the same kind of property in many smaller cities, must certainly know that at the end of twenty years, the property will be worth about double its value at the present time."

SEEKING THE STOCK.

"The new plan is to be a very profitable Walsh to-day, "has caused a great boom in the building stock. Two hundred and fifty of the 500 shares have already sold and there will be no difficulty in disposing of the rest in a very short time. It is the wish of the Executive Committee to organize the new company before the end of the year, and to have everything ready to be in readiness for the perfection of an organization by that time. It looks like smooth sailing and by this time next year we will have a new organization which will be a credit to the Exchange and to the great city in which we live. Those who are profiting through the rapid growth of St. Louis, and who are to do well, will do well in return and they propose to erect an organization which the city can feel proud of."

Harkness—Harkness to the Post-DISPATCH.

NOXOMIS, Ill., Nov. 27.—At the residence of the bride's parents, Mr. and Mrs. G. W. Bone, Miss Jessie Bone, a known lady of this place, a teacher in the public schools for a number of years, also a teacher in the St. Louis city schools for a long period, was united in marriage to Mr. T. L. Harkness of the Missouri Pacific Railway Co. of St. Louis. The bride's father is a member of the St. Louis Presbyterian Church officiating. The wedding was well attended by a number of prominent society people of this and adjoining towns.

BUYING AND BUILDING.

REAL ESTATE PURCHASES AND EXTENSIVE IMPROVEMENTS IN ALL QUARTERS

Mr. Daniel Catlin's Ten Story Building—Bad Weather Checks Grading and Sidewalk Laying—An Indiana's Investment—Westminster Place—The Bridge Terminal Railway Co. Buys a \$14,000 Site.

UNFAVORABLE weather has put a stop to real estate operations temporarily. In the Commercial Hill section grading is about completed but the snow walks have not been laid while such weather as the present lasts, and that part of the work is not likely to be resumed while there is a prospect of a freezing temperature.

Mr. Charles H. Bailey says the grading of Mr. Daniel Catlin's 1,100 feet of ground on the north side of Olive street, situated east and west of Pendleton, about where the cable makes the first turn south, is about finished, and if the weather does not improve nothing more will be done with the property until spring. In the meantime the ground will have settled and be in fine order for laying random walks and improving the street.

Mr. Daniel Catlin's 100 feet of ground on the northwest corner of Second and Ashley streets in city block 250, near where May Rainwater recently sold, at his address before the fire, is now in the hands of Mr. Daniel Catlin and having lately inherited a large amount of money he has been looking around the country for some safe place in which to invest it. He has been looking for some time now for a plot of land to build a house on, and having been shown a place in which to invest it, he went pleased him so well and offered such reliable terms for it that he has decided to build a house on it.

Mr. Daniel Catlin has concluded to build a house on the northwest corner of Second and Ashley streets in city block 250, near where May Rainwater recently sold, at his address before the fire.
